

Roulette Verseur is a larghe-side pourer, it allows you to effortlessly pour up to 18 litres. The bottle's support does a full **360** degree turn. The pouring can be performed without wasting any of the product, thank to the support's tilting mechanism. The bottle holder can fit ice packs. In this way the bottle can remain cooled during pouring. The product has an ergonomic design and is made of cast aluminium to improve maneuverability and stability during use, the material also guarantees protection from deterioration.
